DETAILED ACTION

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-17, 19 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Mansey et al.

Mansey et al. teach a system for accessing a network comprising an access station (14) which links an electronic terminal via a first communication link and establishes an account based upon an identifier established by the station and transmits connection information back to the electronic device for use in a second communication link (Fig. 2). Mansey et al. also teach the access station associates the access time with the account for billing purposes (col. 2, lines 9-26).

Response to Arguments

Contrary to applicants' argument that Mansey does not teach an identifier, the identifier is clearly inherent to the system of Mansey, otherwise, billing could not occur.

With respect to applicants' assertion that Mansey does not teach a second communication link between the terminal and the ISP, figure 1 clearly shows such a feature.

It is also noted the service provider monitors all usage of all communication links for the purposes of billing.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
